NATURAL STONE VENEER

Marble Magic on Every Surface

VOLUME-2
MARBLE SERIES

REAL STONE, REAL FEEL

TECHNOLOGY

We cut thin slices of stone from a huge slab to produce innovative Natural Stone Veneers using la specialized glass fiber-resin technology.

EASY TO INSTALL

Stone Veneer sheets can be applied onto any surface with a strong laminate adhesive (Eg: Fevicol HeatX). Installation of this material is easier & convenient than an actual stone slab. Installation of this material is easier & convenient than an actual stone slab.

EASY TO CUT

Our stone veneer is simple to cut into any form or dimension using anything from a carpenter's standard tools to metal cutting tools.

DURABLE

A sturdy material which can withstand test of times. A sealer coat can be applied on the surface of the sheet to make it the surface completely waterproof / oilproof.

LIGHT & FLEXIBLE

A Stone Veneer sheet is much lighter than a stone slab and a large sized 8x4 feet sheet weighs no more than 7-8KG. It is also flexible and can be easily applied on curved surfaces.

DIMENSIONS
